PART IV.

Official Papers.

Abstract of Season or Intermediate Reports for the Week ending 5th September 1885.

District.	Rain-fall at—	Inches.	Cents.	Price in seers per Rupee.			Markets how supplied.	State of Crops.	Prospects of Season.	Public Health.	Remarks.
Bangalore ...	Bangalore Cantonment.	...	6		Present week. Seers.	Past week. Seers.	Well.	Rain continues to hold off and as time advances the sowing season is passing away. Wet and dry fields have dried away in many parts.	Unfavorable....	Generally good.	Sources of drinking water failing, pasturage falling off and in some Taluks leaves are being used as fodder for cattle, which are generally in poor condition, cattle disease to a limited extent.
	Bangalore Town.	...	...								
	Hoskôte ...	...	...								
	Dodballapur ...	...	...	Rice, 2nd sort	9	10.					
	Nelamangala ...	...	...	Ragi	25	26½.					
	Kankanhalli ...	...	...	Horse-gram	18	18.					
	Magadi ...	...	...								
	Anekal ...	...	...								
	Closepet ...	...	...								
	Kunigal ...	...	...								
	Channapatna ...	...	...								
Kolar ...	Bowringpet ...	...	...	Rice	10½ to 12	11¼ to 13.	Do	Withering all over the District. If rain continues to hold off for some time longer, the young crops will die away.	Discouraging.	Generally good, fever and small-pox prevail in parts.	Cattle disease prevails in parts, leaves of trees are used as fodder, cattle dying for want of wholesome food. Many tanks are empty. Scarcity of drinking water both for man and beast is felt in several parts of the District.
	Chintamani ...	...	...	Ragi	22 to 32	24 to 32.					
	Mulbagal ...	...	0½	Horse-gram	16 to 24	16 to 24.					
	Sidlaghatta ...	...	...								
	Chikballapur ...	...	...								
	Goribidnur ...	...	35								
	Malur ...	...	8								
	Bagepalli ...	...	...								
	Devanhalli ...	...	...								
	Gudibanda ...	...	...								
	Srinivaspur ...	...	...								
	Kolar ...	...	...								
Tumkur ...	Tumkur ...	...	47	Rice	10½ to 13	11½ to 13.	Do	Jola irrigated ragi and paddy were harvested in a very few places. The standing crops, navane, ragi, ballar, tuvar, javari &c., are in a precarious condition. They have dried or are drying in many places. If rain holds off for a week more, much of the crops will be entirely lost. In parts of Pavagada the javari crops have been allowed to be grazed by cattle.	Unfavorable...	Sore-eyes, small-pox and fever and cold in Tumkur, small-pox in Sira and ague in Chellakere.	Fodder and water very scanty. Cattle in poor condition. Hoof and mouth disease prevalent in parts of Chitaldroog Sub-Division. Leaves and roots are used for fodder and in Chellakere cattle are taken over to Malnad and Her Majesty's Territories.
	Madhagiri ...	...	...	Ragi	25 to 36	25 to 36.					
	Chikmayakanhalli.	...	...	Horse-gram	16 to 24	18 to 24.					
	Sira ...	...	40								
	Gubbi ...	...	...								
	Pavagada ...	...	...								
	Chitaldroog ...	...	...								
	Challakere ...	...	...								
	Holalkere ...	...	..								
	Hiriyur ...	...	...								
	Tiptur ...	..	...
